1 INTRODUCTION

To be able to perform service and repairs in a professional, correct and timely way you need accurate technical information. Volvo Cars Technical Information Shop (TIS) provides this information together with owner's information and VIDA subscriptions. TIS is available in 15 different languages in most markets.

The URL to TIS is <http://tis.volvocars.biz/tis>.

1.1 TIE

TIE (Technical Information Exchange) is mentioned in several cases throughout this help document. It is a Volvo Cars system that handles discrepancy reports, certain account set ups and communications between dealerships/Independent operators, sales companies and Volvo Car Customer Service. For more important information *see chapter 1.6 Helpdesk/support on page 4*.

Use TIE in those cases that it is required.

It is only possible to access TIE when you have a valid VIDA subscription. Log in with your VIDA login credentials.

The URL to TIE is <http://tie.volvocars.biz>.

NOTE

If you are an independent operator with no connection to TIE, use the **Contact us** link at the bottom of the page.

1.2 Account set up in TIS

Long-term independent operators (non-authorized Volvo cars dealers) should be registered by a sales company. Short-term independent operators can register themselves, *see chapter 2.2 Self-registration for independent operators on page 5*.

For problems regarding login and password, *see chapter 1.6 Helpdesk/support on page 4*.

1.3 VAT number (EU only)

A VAT number is mandatory in order to make purchases in TIS. VAT number is registered via the **Profile** page. For further information and instructions, *see chapter 6 Profile on page 16*.

NOTE

Only enter VAT number if you are registered for EEA value added tax and have a current VAT number.

1.4 Business license number (China only)

A business license number is an alphanumeric combination of alphabetic and numeric characters. It contains 18 or 15 characters. A business license number is mandatory in order to make purchases in TIS. Business license number is registered via the **Profile** page in TIS. For further information and instructions, *see chapter 6 Profile on page 16*.

1.5 Access levels

TIS has different access levels for different users. It is possible to register as either an independent operator or as a private user. To register as a non-authorized dealer/independent operator, a valid VAT number/business license number must be entered during the registration process.

The access levels are described below.

1.5.1 Non-authorised dealer/independent operator

A non-authorised dealer/independent operator is able to:

- Use self-registration at first log in.
- Order publications.
- Order VIDA subscriptions (applies in EU and EFTA countries and China only and only for users with a valid VAT number/business license number).
- Pay with a credit card.

1.5.2 End customer

An end customer is able to:

- Use self-registration at first log in.
- Order publications.
- Pay with a credit card.

1.6 Helpdesk/support

Contact channels for support issues are dependent on user type.

End customers and independent operators who does not have access to TIE should always contact the TIS Helpdesk. All contact information is accessed by clicking **Contact us**, at the footer in TIS. Support is only provided in English and the communication channel is email.

If TIE is accessible, use appropriate TIE template. Please make sure all your TIE reports contain:

- Your name.
- TIS user ID.
- Email address.
- The partner ID of your company.

Your inquiry cannot be processed without this information.

2 LOGIN

TIS is accessed via the login page (<http://tis.volvocars.biz/tis>).

5.1.6 Order details for VIDA

When VIDA has been ordered, there will be a key code on the invoice. The key code provides information about the order:

- The first letter indicates the order type: N (New), U (Upgrade) or R (Renewal).
- The second letter and one to three digits indicate the duration of VIDA subscription: H1, D1, D30, D90 or D365.
- The next four letters are VIDA, indicating that VIDA has been ordered.
- The next number indicates the actual number of licenses ordered.
- The rest of the key code indicates which packages have been ordered. D (Diagnostic Workflow) +SW (Software Download).

ND30VIDA2DSW is an example of a key code. It is explained below.

N	D30	VIDA	2	DSW
This is a new order.	The duration of the VIDA subscription is 30 days.	VIDA ordered.	2 licenses ordered.	This order includes the packages D and SW (see explanation above).

If you hold the cursor over the information symbol , you will get information about the VIDA subscription ordered.
